HACKATHON

PROGRAMMING

GOAL

BRAINSTORM

hackathon

***/ˈhækəθɒn/* noun:**

an event in which a large number of people meet to engage in collaborative computer programming.

INNOVATION HACKATHON 2021

It is a competition where students from various departments and regions

collaboratively work towards a common goal over a short period of time

to find **innovative solutions** to business cases.

ACTORS

STUDENTS – 4 UNIVERSITIES
(LUISS Ud'A UNIVAQ UNIVPM)

ENTERPRISES

CONFINDUSTRIA CHIETI
PESCARA- Innovative Services
Department

WHAT?

You have to find the solution in a day and a half

Three business cases about innovative solutions introduced from three different companies

6 essential tips to be successful in an Hackathon

Communication – Responsibility – Problem solving – Teamwork – Leadership - Flexibility

WHY?

This hackathon ended with a clear **English business presentation** of the solutions of business cases.

Make it visual. This makes it easier to explain your solution to the Evaluation Committee.

The best solution reaches
the Innovation Hackathon Awards 2021.

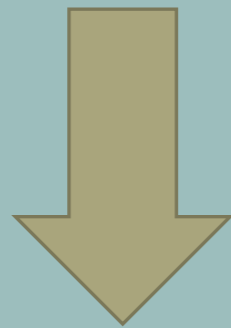

Generally it consists in **an award** given out by Confindustria Chieti Pescara. You can also put it in your reputation as a task you have achieved.

Hackathon is a great opportunity for personal and academic development and will of course also look good on your resume and gives the opportunity to know enterprises and increase your business network.

WHERE?

FACE TO FACE
ACTIVITIES
AND
ON “MICROSOFT
TEAMS”

“TEAMS” is a REMOTE PLATFORM

9 teams.

Each **TEAM** will be composed by **6-7 students** from all departments involved.

Each student could work with his computer desktop, laptop or tablet.

It is contemplated that there will be a time frame for tutor’s support and assistance.
